

Frankly i am paying for my telephone services and since i'm paying for it i don't think i should keep on receiving telemarketer sollicitation calls. If telephone was free like televetion than i suppose i would have to live with the commercials but even tv i can turn off when i need to sleep because of my working hours or when i'm having dinner with my family. Look 80% of wisconsin resident are signed up for this, You think we want you to take it away?
